ADVISORY BULLETIN #28

2009 NEW JERSEY WORKERS COMPENSATION & EMPLOYERS LIABILITY INSURANCE MANUAL

The 2009 New Jersey Worker Compensation & Employers Liability Insurance Manual (Bureau Manual) is now available at our website; www.njcrib.com.

The 2009 Bureau Manual has been improved. The Bureau Manual is now one file instead of five. This will allow you to conduct a word search in the entire manual instead of searching the five individual files that made up the Bureau Manual in the past. The Bureau Manual is one file, 9.6 megabytes. Depending on your local network traffic and the internet traffic, the amount of time to open the file will vary.

Now that the Bureau Manual is one file, you can download it to your desktop for quicker access. If you do choose to download the Bureau Manual to your desktop, please be advised that once a quarter we will update the Bureau Manual on the website and you will then have to download the updated version. There will be an email announcement along with a notice on njcrib.com when an update is available.

We are confident that these new improvements will assist you in using the Bureau Manual in your daily operations.
