CIRCULAR LETTER #1950

To: All Bureau Members

Re: Rating Bureau Adopts Single Sign On Connection in New Jersey

As part of its renewed commitment to provide members with the latest services and data tools, the Rating Bureau has joined several other independent Data Collection Organizations (DCOs) by implementing the Single Sign On (SSO) connection. SSO improves the member user experience by facilitating access to participating DCO websites. Carriers log in to the Compensation Data Exchange (CDX) website, which then provides secure entry to products and services offered by other SSO jurisdictions without having to log in again at that DCO's website.

To take advantage of SSO, members must have active user accounts at the Rating Bureau and CDX. To access SSO, users log in to the [CDX website](#), then click the link titled "Log in to DCO" at the top right corner. Users can select New Jersey from the list of participating DCOs, and will be prompted to enter their Bureau website username/password at the initial logon to SSO. Subsequent logons to SSO will not request this information if New Jersey is selected again. Additional information can be found in the [CDX User Guide](#).
