Chief Actuary

December 1, 2021

## **ADVISORY BULLETIN #93**

### **2021 Special Data Call**

The Compensation Rating and Inspection Bureau (“Bureau”) is requiring that its member carriers complete a special COVID-19 pandemic-related Data Call (“Call”) for policies in force as of December 31, 2021, that use either statistical code 9887, statistical code 0942, or classification code 0012, regarding Manual rules 3:10C-3, 3:14-8(13F), and 3:3-35(e), respectively.

In January 2022, the Bureau will post an announcement in CAFé with the link to submit the Call and submission instructions.

Responses by a member carrier, regardless of whether each data call applies or not, are required to be submitted to the Bureau no later than February 28, 2022. Additional time will not be granted. In any case, where the required responses or data are received after the specified due date, fines will be assessed.

The three Excel templates, specific for each of the two statistical codes and the classification code, contain the Call and Instructions, as well as Data Types and Formatting worksheets. Click [here](#) to download now.

If you have any questions, please email the Bureau at [cafe@njcrib.com](mailto:cafe@njcrib.com).

Stanley R. Markow  
Director of the Actuarial Division
