SECTION 6. RETROSPECTIVE RATING VALUES

10. Retrospective Rating-Table of Classifications by Hazard Group (Table H)

TABLE OF CLASSIFICATIONS BY HAZARD GROUP

The following Table is to be used in determining the individual classification Hazard Group assignment. Hazard Group assignments are necessary for use in Retrospective Rating calculations, specifically in the selection of Hazard Group Differentials and Excess Loss Premium Factors, when applicable. Hazard Group assignments are included for all classifications in this Manual.

The Hazard Group assignment for a non-"F" classification whose rate has been increased to provide coverage under the United States Longshore and Harbor Workers Compensation Act is the Hazard Group for the classification increased by two levels (if class Hazard Group is C in this Table, the appropriate Hazard Group is E). When the classification Hazard Group is already at the highest Hazard Group level, the highest Hazard Group level should be used.
